The Commercial club will also be asked to lend assistance in the matter

Each Church Represented. The Church Federation of Omaha, consisting of the pastor and one or two laymen from each church, started the movement last week at its quarterly meeting. Rev. Dr. Spear is president of Dodge street Monday morning and badly the federation, and brought the matter bruised. It was thought at first that the before the Ministerial union. Co-operaman suffered internal injuries, but ex- ting with the two bodies, all organisaamination by Dr. R. B. Harris proved tions of churchmen in the city will work to make the plan produce a revolutionary and permanent wave of church-going among the public.

In accordance with a resolution proposed by Rev. C. N. Dawson of Diets Memorial Methodist church and adopted by the Ministerial association, next Sunday will be "Charity day" in churches. In connection with the plan, Rev. Dr. McCaskill opposed devoting any money to a breadline, and it was explained that such charity work was not contemplated. Rev. J. A. Maxwell, pastor of the Calvary Baptist church, read a paper on "Some Danger Signals We Should Heed,"

which was discussed by the preachers. To Endorse Kugel, Rev. Charles W. McCaskill made brief remarks commending Police Commissioner A. V. Kugel for the law enforcement work he is doing and urged that the Ministerial union take action to endorse, encourage and sustain him.

Rev. Grant Fischer of the Dundee Presbyterian church, president of the association, said that a prominent business man had told him that if the ministers endorsed Kugel opposition to the latter would be more vigorous than ever. Rev. Dr. McCaskill then agreed that no formal resolution had better be passed by the union, but said that the ministers should personally assure Commissioner Kugel of their endorsement and support, so long as he continued his policy of strict law enforcement.

To Keep Out of Papers. Rev. Dr. Baltzley then remarked that esed by the ters should be kept out of the newspapers. He moved that the reporters present be courteously requested by the union to omit all mention of any endorsement of Kugel.

Rev. F. P. Ramsay defended the right of reporters to print all proceedings at meetings to which they have been admitted. He told the preachers that they should not say anything they did not want made public and that they should fear no true report of what they do and say.

Rev. Dr. Baltzley's motion was subsequently withdrawn, and ne moved, with a second from Rev. Dr. McCaskill, that hereafter the Ministerial union have a press committee to give out all news officially. The matter was continued until the next meeting without a vote

## Plenty of Ice May Be Harvested Here

Generally, the companies putting up ice are hopeful of securing a normal supply, regardless of the fact that there is no immediate prospect of colder weather coming within the next few days. However, at the offices of the Omaha Ice and Cold Storage company they are pessimistic. The men who run this concern laid off all their forces on Carter lake yesterday on account of the Chinook wind cutting the fee and softening the surface. The cooler weather last night put the ice in better condition and the forces returned to work today.

All around Omaha ten-inch ice is being cut and others than the Omaha Ice and Cold Storage men believe they are going to be able to fill their houses.

Yesterday work started at Louisville, where on the sand pits fifty men were given employment. The force was doubled this morning, and the output will run about twenty cars per day, all of which is coming into Camaha.

At Seymour lake, Ashland, Memphis and Meadow the forces on the ice have been materially increased since last week, and with four to six days more of cold weather, the usual quantity would be cut and housed.
